EFM CONSULTING

DEMYSTIFYING AND USING DATA TO YOUR ADVANTAGE IN MICAD . . . .

The Micad Internet Property Register (IPR) is a fantastic tool for the collation of information and reporting against the same. In order to use the powerful tools which come with your system, it is first necessary to learn how they are designed, populated and managed.

This informative and interactive session will demonstrate the functionality of the data aspects of the Micad IPR and provide best practice guidance as to the build, population and management of datasets.

Session Details:

When? Friday 7th December 2018 | 9:30am - 12:30pm
Trainer? Marc Watson
Delivery Method? Skype (ONLINE)
Cost? Contact us

micad support partner
